STATINTL

1. My record shows that the attached draft action on "Publications Review Committee" was tabled by  on 3 June, pending further progress by the Intelligence Branch under Planning Directive No. 32. I had intended to make an informal check on 20 June but apparently failed to make a note in the Suspense File. Hence, I am checking now.

2. Action under Planning Directive No. 32 was completed by the study submitted to the Director on 20 June, on the Program for Assuring the Direction, Coordination and Supervision of Foreign Intelligence Research. As I see it, the "Publications Review Committee" matter might as well wait a while longer, pending the Director's action on the above study submitted on 20 June. Please indicate hereon whether you agree.
